To whom it may concern

**Application to UPGRADE a public Bridleway to a Byway Open to All Traffic – Copyhold Lane, Winterbourne Abbas (definitive bridleway S54/1) – PUBLIC CONSULTATION**

**WILDLIFE AND COUNTRYSIDE ACT 1981  
APPLICATION FOR A DEFINITIVE MAP MODIFICATION ORDER – T390**

An application has been received to modify the Definitive Map and Statement (DMS) of rights of way by upgrading definitive bridleway S54/1 to a Byway Open to All Traffic. The route leads north from the A35 in Winterbourne Abbas following the bridleway to its end on the D class road west of Higher Hogleaze Farm. Please see enclosed Drawing Ref **T390-23-1** to illustrate the route.

The application can be viewed by accessing our website at:  
<https://mapping.dorsetcouncil.gov.uk/rightsofway/definitivemap/register>  
and entering the reference number (T390) into the DMMO reference box.

Under the Wildlife and Countryside Act (1981), Dorset Council is required to maintain a “definitive map and statement of rights of way”. The Council is also required by the Act to keep the map and statement under continuous review and to modify them if there is evidence that they are incorrect. The evidence may be in the form of historical documents or modern usage or both.

Members of the public may apply to the Council to modify the map and statement, and the Council must:

- investigate their claims,
- examine the evidence and,
- in the light of the evidence, decide whether or not the claimed rights or other rights exist.

This letter relates to such an application to modify the Definitive Map and Statement by upgrading a definitive bridleway to a byway open to all traffic.

Dorset Council has a duty to investigate the matter, to assess the available evidence and decide whether to make a legal order.

The effect of the modification order, if granted in accordance with the application, would be to recognise and record the rights of the public to use the route with motorised transport.

Please note that applications for DMMOs do not seek to create new public rights but to record those rights that already exist.

Our investigations will evaluate the evidence, from users of the route and from historical documents, and make a recommendation in a report which will be considered by senior managers / officers.

In addition, the evidence may lead the Council to make another type of order from that proposed (ie restricted byway, rather than a byway open to all traffic).

The decision will be based solely on the evidence.

The desirability, suitability or necessity of upgrading the route are not matters that can be taken into account under the Wildlife and Countryside Act (1981) and information on these points is not required.

However, information on the following points would be of assistance from anyone who wishes to submit evidence: -

1. The use of the route by the public – in any form, including motor vehicles
2. Any documentation recording or relating to the route (such as that contained in photographs, or on old maps) which may show public vehicular use (horse and cart; motorised vehicles)

Any evidence received by 11 August 2023 may be included in the decision report into this case, and will be treated as public information (please refer to the Data Protection information at the end of this letter).

In any response, it would be helpful if you could provide an **email address** for future correspondence.

If you need additional time in which to respond, please let me know. The office file (T390) is available for public inspection at the Definitive Map Team office at County Hall by appointment.

Yours sincerely

Barbara Talbott
