Re: Placing of Site Notices for DMMO Applications

Dear Mrs Douch,

I am writing to confirm we have placed site notices for 5 DMMO applications. The relevant applications are listed below along with the location of the site notices and the dates the notices were placed. All notices were placed prominently and were well secured. I trust these applications can now be passed to the Rights of Way department for their attention. When I last spoke to Chris Slade in RoW he mentioned they had not received my application for byway status on Piddlehinton BR3. That claim was submitted on the 24th March 2004 and does not require site notices. Please also pass that application to RoW or advise me by return if that cannot be done.

Batcombe, Leigh; ST 61250 05220 to ST 61705 05505; submitted 14th July 2004.

ST 61250 05220 - Notice placed 5th December 2004

ST 61705 05505 - Notice placed 5th December 2004

Cheselbourne, Dewlish; SY 7393 9842 to SY 7634 9843; submitted 25th September 2004.

SY 7634 9843 - Notice placed 5th December 2004

SY 7393 9843 - Notice placed 11th December 2004

Piddlehinton, Piddletrenthide; SY 6926 9636 to SY 7101 9820; submitted 25th September 2004.

SY 6926 9636 - Notice placed 11th December 2004

SY 7101 9820 - Notice placed 11th December 2004

P'hinton, P'trenthide, Cheselbourne; SY 7289 9792 to ST 7462 0038; submitted 25th Sept 2004.

ST 7462 0038 - Notice placed 5th December 2004

SY 7289 9792 - Notice placed 11th December 2004

Piddletrenthide; ST 711 009 to SY 738 988; submitted 11th November 2004.

ST 711 009 - 5th December 2004

SY 93895 98710 - 11th December 2004

The site notice for the south east end of this claim was placed about 150m south of the claimed route. There was no suitable place to secure the notice at the end of the claimed route and the notice was tied to a metal gate at SY 93895 98710 instead.

In view of the time that has passed since some claims were submitted I would be grateful if you could write to me by return post to advise if any further actions are required from us in respect of these claims and when these claims will be passed to the Rights of Way department.

Yours sincerely,

SIGNATURE REMOVED

Application for Permission to Notify Landowners by Site Notice

FoDRoW is applying for permission to post a site notice to inform landowners about the DMMO application that accompanies this form. Not all the owners of land crossed by the claimed route have been identified using the process described below and we wish to use a site notice to notify the those landowners.

FoDRoW follows the procedure outlined below to identify the owners of land crossed by the route of a DMMO claim:

1. Visit the Land Registry. Request the Land Registry staff identify the titles of land crossed by the route. Where the land is registered we obtain copies of the title and plan to identify the landowner and the boundaries of the land they own. If owners cannot be identified for the entire length of the track the following steps are taken.
2. Continue working at the Land Registry and attempt to identify owners of land upto 2 fields away from the claimed route in addition to the landowners identified in step 1.
3. Write to the landowners identified in steps 1 and 2. If other farms or possible major landowners are located near the route and their details were not identified in steps 1 & 2 then write to those farms and landowners too. All farms in the vicinity of the claimed route will be considered and contacted if appropriate.

The letter sent includes a clear map showing the claimed route and a form for the landowner to return. The form allows the landowner to indicate whether he owns all of the land crossed by the claimed route, none of the land or some of the land. In the latter two cases we ask the landowner to supply the details of the correct landowners if they are known. A copy of the letter, map and form can be supplied to Dorset County Council if requested.

4. At least 28 days are provided for the landowners to respond before a DMMO claim is submitted.

This process was developed in consultation with Gillian Parkinson at DCC. It was felt that a thorough Land Registry search followed, if necessary, by letters to local farms and relevant landowners was a reasonable effort to make to identify landowners. If the land was not registered and local landowners were unwilling or unable to supply the ownership details when contacted then all reasonable steps had been taken.
